

# Keep-It-Fresh Bags

Testing of bananas

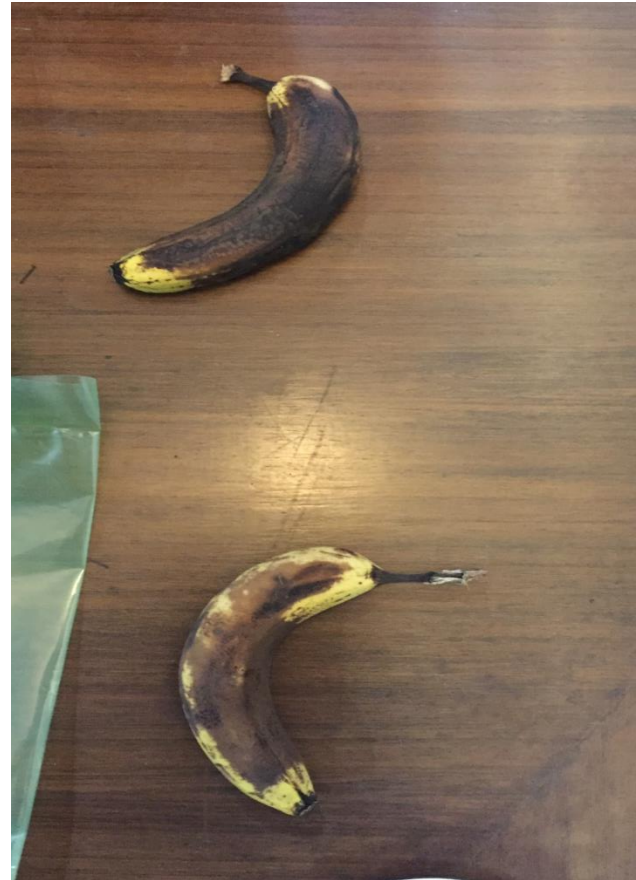

What happens after 14 days to a banana  
stored in normal conditions of  
68 F max and 45 F min

# Bananas in open condition

---

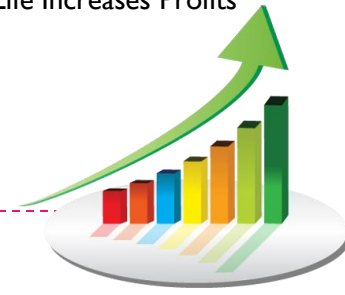

Bananas Day 1

Bananas Day 14

Shelf life enhancement using a  
Semper Fresh 6% MB Bag?

# Bananas packed in SF 6% film

Bananas Day 1

Bananas Day 14

Very slight deterioration compared to the deterioration without packaging. The bananas after 14 days look as deteriorated as 3 days old bananas in open. The shelf life seems to have extended by 5 Times or 500%
