About KIF

Keep-it-Fresh is a leading manufacturer of shelf life extension products. Our complete range of solutions have proven long term use in the commercial fruit and vegetable industry.

We are a 38 year old Group and Keep-it-fresh is the most renowned and reliable manufacturers of Shelf life extension solutions. We serve a network of partners distributors across the globe. Keep-it-fresh has manufacturing facility in USA, India, China, Italy, Japan and Africa.

By investing in new technologies, Research and Development programmes to improve performance, we strive to deliver innovative ethylene absorption solutions.

Our long term partnerships with leading brands are built on an ethical conduct and constant value addition.

Keep-It-Fresh solutions and production facilities are certified to confirm with required norms. All products are manufactured under the most stringent conditions at par with global standards. Customers can use our products with complete confidence and conviction.

We help our customers to be more successful through innovative ethylene absorption solutions which add value to their business by maintaining the brand value, company's image and country's image. Keep-it-fresh provides added value by having its own laboratory to perform gas analysis and absorption capacity as well as shelf life extension and many other analytical tests. This ensures that our clients can benefit from our excellent technical consultancy and assessment.
